

# WANTED

## GOAT PRODUCERS

Join an established, enjoyable, growing industry that offers potential opportunities to increase producer profitability!

CHEVON (goat meat), GOAT FIBRE PRODUCTS and GOAT DAIRY PRODUCTS are in HIGH DEMAND. Today's health-conscious consumers are requesting goat products... demand is surpassing Ontario's and Canada's production!

- WHY RAISE GOATS?**
- Worldwide, Chevon and Goat Milk are some of the most widely consumed products.
  - An established industry where demand exceeds production.
  - An industry destined for growth, advancement and long term sustain ability.
  - A species of livestock that is easily handled and enjoyable to work with.
  - Goats do not require large-scale facilities.
  - Ontario's markets are seeking additional producers to supply milk, meat and fibre.

The Ontario Goat Breeders Association encourages and promotes the expansion of the goat industry, assisting with the development of dairy, meat and fibre markets in Ontario. OGBA works to improve the industry through networking with producers, agriculture specialists and the government, collaborating and distributing information on goat rearing and the goat industry in our province. The OGBA offers beneficial information and services to its members!

- The objectives of the Ontario Goat Breeders Association are to:**
- provide and circulate sound information about goats;
  - improve and develop goat breeds;
  - encourage and promote the expansion of all areas of the Ontario goat industry;
  - assist in the development of meat, fibre and dairy product markets in Ontario.
